

Backbone Reading Solutions:

Universal Screening and structured and sequential training that target skills essential for *Automaticity & Proficient Reading*.

These skills are trained to a level of mastery that includes automaticity to ensure robust and permanent skills development. 10 groups of silent reading passages covering both junior and senior topics.

PURPOSE: Assess and bring struggling readers to a level of reading automaticity at their grade level

Universal Screening and *Differentiated Instruction* by Prescription aligned to **ALL State Standards**.

Reading comprehension, building vocabulary, language usage, and grammar/writing lessons are all automatically prescribed to fill in deficient skill gaps for students at all levels.

PURPOSE: Assess and provide differentiated instruction aligned to the Arizona Articulated Standards for students below grade level, on grade level or above grade level.

Dr. Jim Cummins is an author of the add-on component of our *English Language Learning* solution.

1. Assess (*similar to the AZELLA test*) and Placement automatically in **Listening & Speaking** focused lessons to improve Language Proficiency. Recording voice, playing back recorded voice and comparing recorded voice to the native speaker are required.

2. The additional tool is designed to develop **Reading and Writing** skills, building vocabulary and to gain access to *authentic materials for any school subject*.

PURPOSE: Assess and focus on improving literacy skills development for ELL students.
